

Name: .....  
School: .....  
Class: ..... Grade 5  
Subject: Science Title: Behaviour of Light

---

**Interactive Worksheet: Week 23 Self-Learning Program**

---

**Choose the type of each lens :**

- 1- Thick at middle and thin at edges    Converging lens    Diverging lens
- 2- Thin at the middle and thick at the edges    Converging lens    Diverging lens
- 3- The emergent rays diverge    Converging lens    Diverging lens
- 4- The emergent rays converge    Converging lens    Diverging lens
- 5- The image is erect and its size is bigger than the object    Converging lens    Diverging lens
- 6- The image is erect and its size is smaller than the object    Converging lens    Diverging lens
- 7- The image is inverted    Converging lens    Diverging lens
