

Name: _____ Date: _____

Division

Write the missing numbers in the boxes,

$12 \div 2 = \square$

$20 \div 2 = \square$

$14 \div 2 = \square$

$10 \div 2 = \square$

Watch out!

$12 \div 3 = \square$

$18 \div 3 = \square$

$6 \div 3 = \square$

$10 \div 5 = \square$

$14 \div 2 = \square$

$15 \div 5 = \square$

$20 \div 10 = \square$

$9 \div 3 = \square$

$20 \div 5 = \square$

$5 \div 5 = \square$

Put a X by the numbers that cannot be divide by 2,

14

20

21

6

3

22

12

5

19

8

100

101

What do you notice about the numbers you can divide by 2?

Name: _____ Date: _____

Division *with remainders*

Write the missing numbers in the boxes,

$9 \div 2 = \square$

$3 \div 2 = \square$

$15 \div 2 = \square$

$11 \div 2 = \square$

Watch out!

$14 \div 3 = \square$

$17 \div 3 = \square$

$7 \div 3 = \square$

$11 \div 5 = \square$

$11 \div 2 = \square$

$18 \div 5 = \square$

$19 \div 10 = \square$

$11 \div 3 = \square$

$16 \div 5 = \square$

$7 \div 5 = \square$
