

# Layers of the Atmosphere

I. Read the following descriptions and choose the layer they belong to.

1. Temperature decreases with altitude. \_\_\_\_\_
2. Rockets sent into this layer carry scientific instruments. \_\_\_\_\_
3. CFCs are a big problem in this layer. \_\_\_\_\_
4. It becomes an empty vacuum of space. \_\_\_\_\_
5. Too low for satellites. \_\_\_\_\_
6. Extremely high temperatures. \_\_\_\_\_
7. Densest part of the atmosphere. \_\_\_\_\_
8. Less is known about this layer compared to the others. \_\_\_\_\_
9. Composed entirely of hydrogen gas. \_\_\_\_\_
10. Climbers must bring oxygen masks with them as moving up and into this layer. \_\_\_\_\_
