Chapter 11: Statistical Measures
Lesson 4: Mean Absolute Deviation

Find the Mean Absolute Deviation (M.A.D).

1.

Data (x)	Difference between x and Mean
5	
8	
2	
6	
4	
Mean =	M.A.D =

2. Data: 57, 49, 41, 37, 51.

Mean =

Difference between "data and mean":

Mean Absolute Deviation =

3.

Data (x)	Difference between x and Mean
14	
8	
7	
6	
5	
10	
11	
8	
8	
6	
Mean =	M.A.D =
