## Recuperação de Língua Inglesa

### Did you know?

Leonardo da Vinci wrote from right to left - you needed a mirror to read his handwriting.

He was a genius - he could write one sentence with his right hand and a different sentence with his left hand.

He invented scissors.

He drew architect's plans but never built a building.

He lost most of the paintings and drawings he did in Milan.

He had many talents. He made models and in his notebooks there were plans for a tank, a helicopter and a submarine.

His scientific observations were a hundred years before his time.
