

# Rebecca Adlington

## 1) Rebecca Adlington is a British swimming champion. Read about her life.

She won two gold medals at the 2008 Olympic Games in the 400 m. and 800m races. She's Britain's first Olympic swimming champion since 1988, the first British swimmer to win two gold medals since 1908 and she is just 20 years old. Rebecca- or Becky as her family call her- started swimming when she was 4 years old. She jumped into a

pool on holidays. 'Oh, no! She's never swum before. Will she be okay?' her mum thought.

But Becky swam to the side of the pool, and she's loved swimming since then.

When she was 12, Becky competed in the national championship and won. Her family realized that she could become a swimming star and Becky started training seriously a year later. Her mum Kay, gave up her job to take her to training. Every morning, they drove to the pool very early- training started at 5 a.m. Then, they went home for breakfast. Becky went to school just like any other teenager, but after school she went back to the pool. Becky didn't go to parties or nightclubs as a teenager. However, her parents tried to make sure she had a normal life. Her friends often came over to watch DVDs or eat pizza.

Becky has already broken many world records. She also received a special medal from the Queen in 2008. However for her family she is still the girl who loves chocolate cake, expensive shoes and watching DVDs!

2. Say True or False.

- a) There was a British Olympic swimming champion in 1988
- b) Rebecca has loved swimming since she was 12.
