

What is $43\ 152 + 12\ 446$?

Let's write both numbers according to the place values of their digits and follow the same steps to add them.

Ten Thousands	Thousands	Hundreds	Tens	Ones
---------------	-----------	----------	------	------

4	3	1	5	2
+	1	2	4	6
5	5	5	9	8

Step 1

Add ones. $2\text{ ones} + 6\text{ ones} = 8\text{ ones}$.

Step 2

Add tens. $5\text{ tens} + 4\text{ tens} = 9\text{ tens}$.

Step 3

Add hundreds. $1\text{ hundred} + 4\text{ hundreds} = 5\text{ hundreds}$.

Step 4

Add thousands. $3\text{ thousands} + 2\text{ thousands} = 5\text{ thousands}$.

Step 5

Add ten thousands. $4\text{ ten thousands} + 1\text{ ten thousands} = 5\text{ ten thousands}$.

Add the following numbers:

1 3 6 7 4
+ 6 4 2 2 1

3 2 8 8 1
+ 2 7 1 1 7

6 7 1 0 0
+ 2 2 1 9 0

Follow the same steps you have learnt and add the following numbers. Remember we start adding from the right side.

6 1 3 4 5 1
+ 2 6 2 1 3 8

2 3 1 8 7 1
+ 5 6 1 2 1

3 1 2 1 1
+ 7 1 2 7 0 4
