

1. Circle the better estimate for each capacity. 2 points.

1 L 1 mL

2. How much water is in the container? Circle the amount. 2 points.

400 mL
500 mL

Circle the better estimate for each mass. 2 points each.

3.

1 g
1 kg

4.

1 g
1 kg

Problem Solving 4 points each.

5. Mrs. Khawla bought a 500 mL bottle of liquid laundry detergent. She used some of the detergent, and now she has 473 mL left. How much detergent did she use?

6. **Algebra** Rana measured the mass of a banana and found it to be 132 g. What is the total mass of 2 bananas of the same size? Write an equation with a letter for the unknown. Solve.

Test Practice

4 points

7. Which is most likely to be the capacity of a mug of cocoa?
- (A) 10 mL (C) 2 L
(B) 100 mL (D) 5 L
