CLIMATE CHANGE

SELECT THE CORRECT ANSWER ACCORDING WITH THE READING
(SELECCIONA LA RESPUESTA CORRECTA DE ACUERDO A LA LECTURA).

Climate change, or global warming, is a serious problem facing our planet. It means that the temperature of the Earth is getting hotter every year. This change makes our weather more extreme, and as a result, lots of animals and even humans won't be able to **adapt** to climate changes in the future. For example, warmer weather makes **forests** very dry and when a fire happens in an area where there is a lot of dry wood and grass, it is very difficult to stop it. These fires cause a lot of destruction and release lots of carbon dioxide into the **atmosphere** which is harmful to humans.

1. THE CLIMATE CHANGE IS A SERIOUS PROBLEM.

TRUE

FALSE

2. THE CLIMATE CHANGE IS THAT THE TEMPERATURE IS COLDER.

TRUE

FALSE

3. THE CLIMATE CHANGE MAKES OUR WEATHER MORE EXTREME.

TRUE

FALSE

4. THE MEANING OF ATMOSPHERE IS “ATMÓSFERA”

TRUE

FALSE
