

FRACTIONS

Fractions Exercise

Name: _____

1. Look at the colored part and write the correct fraction.

2. Write the numerator and denominator to find the equivalent fractions.

	=	

	=	

	=	

3. Use multiplication to find the equivalent fraction.

Example:

2	=	
3		

$\nearrow \times 2$
 $\searrow \times 2$

1	=	
2		

$\nearrow \times 4$
 $\searrow \times 4$

2	=	
4		

$\nearrow \times 3$
 $\searrow \times 3$

2	=	
5		

$\nearrow \times 2$
 $\searrow \times 2$

4. Compare the following fractions.

$\frac{6}{8}$ is _____ $\frac{7}{8}$

$\frac{2}{4}$ is _____ $\frac{3}{4}$

$\frac{3}{5}$ is _____ $\frac{4}{5}$

$\frac{3}{7}$ is _____ $\frac{3}{10}$

$\frac{3}{4}$ is _____ $\frac{5}{6}$

5. Look at the picture and find the fraction.

What fraction of the animals are fish?

What fraction of the animals are starfish?

What fraction of the animals are seahorses?
