

## Riddles / conundrums/ guess

**1.** \_\_\_\_\_ It comes from above, but never goes up. The planet earth needs it to survive. Sometimes if it combines with the sun, you will get something very colourful.

**2.** \_\_\_\_\_ It gives light and it is not the sun or a light bulb. The more you use it, the shorter it will be. You can usually find it on birthday cakes.

**3.** \_\_\_\_\_ I go up and down all day without stopping, except when there is no electricity. You find me in hospitals, shopping centers and apartment buildings. In case of emergency, never use me.

**4.** \_\_\_\_\_ I am green and catch flies. I usually do not walk, hop and hop from here to there all the time. I also kiss princesses and marry them.

**5.** \_\_\_\_\_ People feel me, but they cannot see me. I produce energy at a low cost. I can be violent and dangerous, but I can also be soft and refreshing.

**6.** \_\_\_\_\_ I can be square or round. Many people wear me on their wrist. In ancient times, some people carried me in a pocket. If you have a meeting and you think you're going to be late, you will probably look at me a lot.
