

Finding Circumference and Diameter

$$\pi = 3.14$$

D = Diameter

If this circle has a Diameter (d) of 8cm, what is its Radius (r)?

$$r = \underline{\hspace{1cm}} \div 2$$

$$d = \underline{\hspace{1cm}} \text{ cm}$$

$$= 8 \div 2$$

Drag answers to their correct boxes

$$= \underline{\hspace{1cm}} \text{ cm}$$

d      8      4

What is this circle's Circumference?

$$C = \pi \times d$$

$$= \underline{\hspace{1cm}} \times \underline{\hspace{1cm}}$$

8      4      3.14      25.12

$$= \underline{\hspace{1cm}} \text{ cm}$$
