Finding Circumference and Diameter

 $\pi = 3.14$

D = Diameter

If this circle has a Diameter (d) of 8cm, what is its Radius (r)?

$$d = cm$$

$$r = \underline{} \div 2$$

$$= 8 \div 2$$

Drag answers to their correct boxes

d 8

4

What is this circle's Circumference?

$$c = \pi x d$$

8 4 3.14 25.12
