PARAGRAPH ONE:

1. computer-to-brain
2. Mr Musk has an impressive
3. Gertrude the pig reveals
4. Computers could enhance
5. trials would begin
6. a giant leap
7. He said it would greatly
8. giving us superhuman

a. powers
b. on humans one day
c. technology
d. change our lives
e. his latest ambition
f. our brainpower
g. into the future
h. record

PARAGRAPH TWO:

1. the potential the technology
2. neurological conditions
3. our brain is wired directly
4. Just like in a science
5. Internet-
6. The most futuristic
7. artificial
8. powerful enough to destroy

a. aspect
b. fiction movie
c. the human race
d. like strokes
e. intelligence
f. could deliver
g. enabled devices
h. to the Internet

Elon Musk has (1) _____ pig with a computer chip in her brain that could lead to (2) _____ technology in humans. Mr Musk has (3) _____ in pioneering technology, from electric cars to space tourism. Gertrude the pig reveals his latest ambition - to allow us to control computers with our brains. Computers (4) _____ brainpower. Musk announced that trials would begin on humans one day. He believes the technology is a (5) _____ the future. He said it would greatly (6) _____ by giving us superhuman powers.

Mr Musk said results from Gertrude the pig (7) _____ the technology could deliver. He hopes it will help people with neurological (8) _____ and dementia. It could also mean our brain is wired directly to the Internet. Just like in a (9) _____, we could control Internet-enabled devices by using our thoughts. The (10) _____ of the technology is what Musk calls "superhuman cognition". This is to help (11) _____ intelligence becoming powerful enough to destroy (12) _____.
