

## English worksheet: Cars

### A.- Types of cars.

I.- Match the types of cars with their correct picture.

Convertible

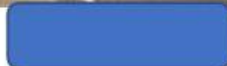

Station wagon

Pick up truck

SUVs

Sport car

4-door sedan

### B.- Reading comprehension

The U.S. motor vehicle manufacturer Ford Motor Company is bringing back its legendary Mustang Mach 1 car. The classic, high-power sports car was first produced in 1964. It is one of the most famous and recognisable cars ever produced. It has starred in many movies, such as "Bullitt" in 1968 and "Fast and Furious: Tokyo Drift" in 2006. It has also played a central role in many American TV shows. The new Mach 1 has a V-8, 5.0-litre high-performance engine. Prices will start from \$36,725. A Ford spokesman said: "Mach 1 has a special place in Mustang history. Like the original, the all-new Mustang Mach 1 will be true to its heritage. It will deliver great looks and [be the best racing] Mustang ever."

The Mustang was developed as a stylish, sporty, open-top convertible in 1964. Managers at Ford originally predicted it would sell 100,000 of the cars a year. However, the Mustang became the most successful vehicle launch since the Ford Model A in 1927. Ford sold over 400,000 Mustangs in 1965 and recorded sales of over one million a year later. The car's sporty looks made it very popular. This led to other car makers producing what people called "muscle cars". These included the Chevrolet Camaro and Pontiac Firebird. A car analyst said: "The heritage of the Mach 1 invokes a sense of speed." Ford is hoping the new Mustang Mach 1 will stay in people's hearts and add to its long history.

**I.- Read the text and mark the following sentences True or False.**

1. The article described the Mustang Mach 1 as being legendary. T / F
2. The article said the Mach 1 is the most famous car ever made. T / F
