1. Garage Lights: Can't find a parking spot in a cluttered parking garage? Well, this new invention would make that a whole lot easier. Just simply look for an open _____ by searching for a green light. Red lights indicate that a parking spot is currently in use while the green light indicates that that spot is empty. The amount of headaches this would save would be astonishing.

2. Anti-drip mug: At first glance you wouldn't expect this to be anything other than a _____ coffee mug but it's actually specifically designed to catch drips of your beverage so it doesn't smear, stain or _____ the surface it's on. You don't normally think of a dripping issue before it happens but when it does, it's one you wish didn't.

3. Coffee-mug phone charger: Having a dead phone is the worst but why not use your drink to power it? This _____ charger design is unlike any other. Its design powers your phone by taking the heat or the cold from your drink.

4. Solar-powered phone charger: Don't have a drink to power your phone? _____ this solar-powered phone charger to any window on a sunny day.

5. USB batteries: As you know, you can run through batteries pretty easily, not to mention they aren't that _____. These cool, new rechargeable batteries are able to be opened and charged in any computer USB port. Just pop open the cap and _____ it in. This invention saves a lot more time and money than you think.

6. Internat fridge magnets: Why not take advantage of the extra headroom in your fridge? This invention mounts powerful _____ to the top of your fridge, allowing things with metal lids to stick and stay up there with ease. With the extra space, you'll have far more _____ to store more items with ease.

7. Jibo the robot: This cute little robot would love to be a new addition to your family. Jibo can talk to you when you're bored, take photos without someone missing out, _____ young ones, order you food, text your friends and so much more.

8. Foot handle: We've all been here: opening a public bathroom door with your hands can be gross. In fact, research shows that door handles have been found to carry more bacteria and _____ than anything else in the public restroom. This is just another reason why this invention is perfect. The foot handle can be mounted to any door and _____ opened with any foot.

9. Smart eyeglasses: These smart eyeglasses are much more than you think. They can monitor your _____, tiredness and sleepiness levels and display that information to you through your phone. Why not? These bad boys debuted in 2015 with a starting _____ of six hundred and ninety dollars.

10. Purifying straw: This invention would be perfect for those in need. You can stick this straw in a river, lake, or pond and it will instantly purify and filter the water as you suck it through the straw. Just imagine how many lives can be saved because of this _____.
