

Ticket Man

NOMBRE

FECHA

The game board consists of a winding path of boxes. The path starts at a box containing the number 12, moves right to a box with 15, then continues through several empty boxes. The path then turns down, moves left, then right, then down again, and finally ends at a box containing the number 8. Arrows with math problems indicate the sequence of moves:

- From 12 to 15: $+3$
- From 15 to the next box: -7
- From the next box to the next: $+6$
- From the next box to the next: $+3$
- From the next box to the next: -9
- From the next box to the next: -7
- From the next box to the next: $+4$
- From the next box to the next: $+3$
- From the next box to the next: -8
- From the next box to the next: $+10$
- From the next box to the next: -8
- From the next box to the next: $+5$
- From the next box to the next: -8
- From the next box to the next: $+6$

Cartoon characters Mr. Potato Head and a female Mr. Potato Head are placed at the start and end of the path respectively.
