- e) my profile very often.
- f) video games all day.

4 Kate's advice

Underline the correct words.

Do you use social networks? This is my advice for you:

- ⇒ Don't start to worry **whenever / before** you see a photo of friends without you. It's just a picture of one moment.
- ⇒ **Because / Before** you make a person an online friend, make sure that you know who he or she is.
- ⇒ Block a person **as soon as / until** you have a bad feeling about them.
- ⇒ Be extra careful when you post photos of yourself and others **because / after** you don't always know who sees them.
- ⇒ Don't act **until / like** you are too crazy or silly online.
Not everybody knows you in real life!
