

A photograph of three dogs against a light blue background. On the left is a German Shepherd sitting and looking towards the right. In the center is a white Labrador Retriever lying down, looking directly at the camera. On the right is a Beagle standing and looking towards the camera.

$$X = \boxed{} \cdot \frac{\boxed{}}{\boxed{}} = \boxed{}$$

$$x = \frac{\quad}{\quad} = \frac{\quad}{\quad}$$

$$X = \begin{bmatrix} & \\ & \end{bmatrix} \cdot \frac{\begin{bmatrix} & \\ & \end{bmatrix}}{\begin{bmatrix} & \\ & \end{bmatrix}} = \begin{bmatrix} & \\ & \end{bmatrix}$$
$$X = \frac{\boxed{}}{\boxed{}} = \boxed{}$$
