

There are [] types of [] and this is how they're named
SEDIMENTARY, [], IGNEOUS []

There are three kinds of rock and this is how they're [].
[], METAMORPHIC, IGNEOUS IGNEOUS

We will we will rock you
We will we will rock you

[] is [] it comes from underground.
Hot volcanos throw it all around.
Lava gets [] and turns into []
called Igneous []

Wind and Water wears down rock.

Years and years of erosion.

Streams take pieces out to sea where they make sediments on the ocean floor.

Layers build up over many years.

Layers turn hard and then one day sedimentary rocks are made.

LIVEWORKSHEETS

Rocks go deep into the Earth's crust.

Heat and pressure change them again.

Sedimentary rocks are made.
