

Los superhéroes del Grupo Flexible

Calculamos mentalmente

Para sumar o restar 11 a números de 2 o 3 cifras sumamos o restamos uno a las unidades y uno a las decenas.

$$\begin{array}{cc} \text{D} & \text{U} \\ 3 & 8 \\ + & 11 \\ \hline 4 & 9 \end{array}$$

Diagram showing the addition of 11 to 38. The tens digit 3 is increased by 1 to 4, and the units digit 8 is increased by 1 to 9. A red bracket under the tens column shows $3 + 1 = 4$, and a blue bracket under the units column shows $8 + 1 = 9$.

$$\begin{array}{cc} \text{D} & \text{U} \\ 23 & 8 \\ - & 11 \\ \hline 22 & 7 \end{array}$$

Diagram showing the subtraction of 11 from 238. The tens digit 3 is decreased by 1 to 2, and the units digit 8 is decreased by 1 to 7. A red bracket under the tens column shows $23 - 1 = 22$, and a blue bracket under the units column shows $8 - 1 = 7$.
