Learning to find our way

On the Earth, we need to find our way. Before we learn to find our way we need to know: up-down, in-out, left-right and inside-outside.

1 Circle the children whose arms are up.

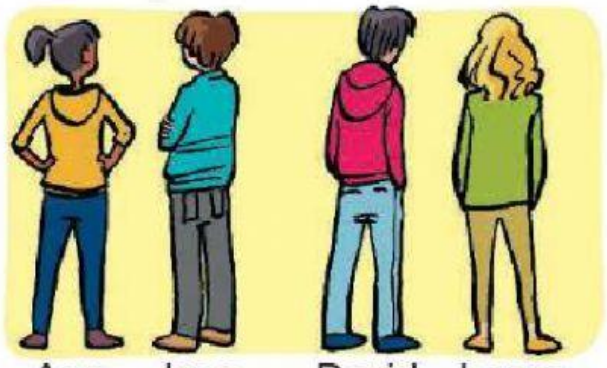

2 Count the fruits inside and outside the bowl.

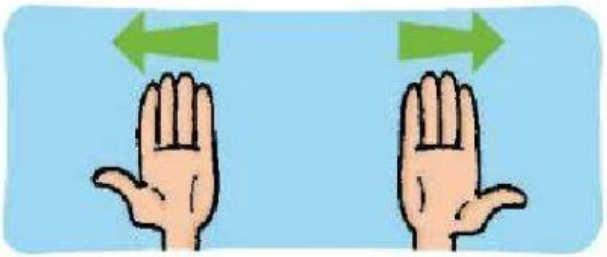

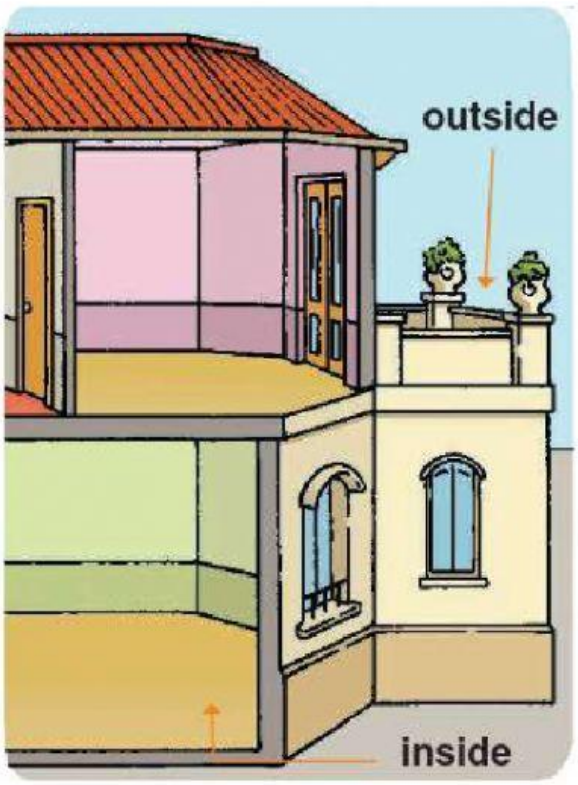

inside → ◯

outside → ◯

David is to the left of Laura.
To the right of Juan is Ana.

Listen and read. Write the names of each person.

Ana is to the left of Juan. Elsa is on the far left and to her right is David. Hector is between David and Ana.

Write **inside** or **outside**.

The garden is _____ the house.

The living room is _____ the house.
