

Animals and plants in the Owl Mountains

Put the names of the plants under the right picture:

blueberries

spruce

pine

mountain arnica

foxglove

birch

blackberries

Put the names of the animal under the right picture:

a mouflon

a bat

a boar

a deer

a fox

an owl

a squirrel

Match the pictures with the **plants** names in the Owl Mountains

blackberries

birch

arnica

spuce

blueberries

foxglove

pine

Match the pictures with the **animals** names:

Animals

a mouflon

a little owl

a bat

a fox

a deer

a boar

a squirrel

A trip to the Owl Mountains

Kate and John like mountains. They often go to the mountains with their parents.

In the summer they get up early, take sandwiches, some fruit and water. They put everything in their bags and leave their home.

Now they are in the mountains, they are looking around, because they want to see the animals and plants.

Kate is happy, because in the 1. she can see
2. . John finds some 3. and he is picking
them up. Behind the 4. they can see
5. and a big 6. with wonderful horns.
In the 7. John can see 8. .

When they come back home they can see beautiful flowers:
yellow 9. and pink 10. .
