### Follow Your Dreams

#### 1. Read the following text.

Harry Potter is a character in a series of fantasy novels written by the **inspiring** and imaginative writer J.K. Rowling. The stories are about typical teenage life situations, and relationship problems such as **jealousy** and school exams in a fantastic world. But the author's life was really difficult before her stories became popular. Rowling's mother died after she finished writing her novel which took her seven years. Then, she got divorced and lived in poverty partly because her book was **rejected** 12 times before it was published. However, she followed her dream and **persisted** until she could get the world to know her stories. In 2001, the first *Harry Potter* movie was released in London, and was followed by seven others. Rowling became rich not only because of her great imagination and writing skills, but also for her persistence in following her dream. She has certainly lived a very creative life.
