

You are going to listen to the second part of the conversation between Sophie and Jean talking about the 'Hyperloop'. Write (T) if the statement is **true** and (F) if the statement is **false**.

- 1 Jean was not interested in hearing about the hyperloop.
- 2 The hyperloop is a new type of train.
- 3 Passengers travelling by hyperloop will sit in pods.
- 4 The pods will float on air that will not touch the ground.
- 5 Travelling by hyperloop will be more expensive than travelling by train.
- 6 The first hyperloop is likely to be operational in 2025.

So, it is like a train...
a different type of train. The main
difference is that the hyperloop uses
floating pods.
