

A. **Task one** : Put the paragraphs in the right order to make a good generic structure of explanation text.

(A) Teens are often exposed to images of celebrities smoking, which can make it seem cool, even though there are many serious downsides to smoking. In some instances, the media tries to

(B) Smoking is known to be damaging to one's health and can cause various cancers in the body. Smoking at any age has negative effects, including for teenagers and young adults.

(C) Smoking for adolescents is not very good, in addition to causing cancer it also spends a lot of money on an activity that is not very useful.

(D) Teens may be faced with peers who smoke or family members who smoke in their home. Being bullied to start smoking is very possible, especially for those who are over 18, since it is then legal to smoke cigarettes in many regions. If teens live with smokers, they are likely exposed to second-hand smoke and all the health repercussions that come with it. These teens are also more likely to have access to packs of cigarettes that older siblings, parents or other family members have in the household.

**B. Task two : Arrange the sentences in each paragraph to make good order**
