MOTHER'S DAY

Mother's Day is a special day in many countries. In Europe Mother's Day is in the spring. But it is on different days in different countries. In Spain it is on May the 1st, in Italy and Germany it is on May 8th, and in Poland it is on May 26th.

In Britain and the USA the date is different every year. In Britain it is in March or April. In the USA it is on the second Sunday in May.

But there are presents for Mums in every country! The most popular presents are flowers and chocolates. Cards and telephone calls are very important, too. Other members of the family have special days, too. In many countries Father's Day is on March 19th. And in some countries like the USA there are special days for grandparents.
