

Amigos o complementarios de 10

Suma

$0 + 10 =$	$3 + 7 =$	$6 + 4 =$	$1 + 9 =$
$4 + 6 =$	$5 + 5 =$	$8 + 2 =$	$7 + 3 =$
$9 + 1 =$	$2 + 8 =$	$10 + 0 =$	

Y ahora con la resta

$10 - 1 =$	$10 - 8 =$	$10 - 3 =$	$10 - 6 =$
$10 - 9 =$	$10 - 2 =$	$10 - 7 =$	$10 - 4 =$
$10 - 5 =$	$10 - 0 =$		

Un poquito más difícil. Observa:

$6 + 4 = 10 \rightarrow 10 - 6 = 4$

$0 + \quad = 10$	$3 + \quad = 10$	$6 + \quad = 10$	$1 + \quad = 10$
$4 + \quad = 10$	$5 + \quad = 10$	$8 + \quad = 10$	$7 + \quad = 10$
$9 + \quad = 10$	$2 + \quad = 10$	$10 + \quad = 10$
