

## Adding and Subtracting Fractions with unlike Denominators

1.  $\frac{1}{2} + \frac{2}{3} = \underline{\quad} + \underline{\quad} = \underline{\quad}$

— 

 — 

2.  $\frac{1}{5} + \frac{2}{4} = \underline{\quad} + \underline{\quad} = \underline{\quad}$

— 

 — 

3.  $\frac{3}{5} - \frac{3}{10} = \underline{\quad} - \underline{\quad} = \underline{\quad}$

— 

 — 

4.  $\frac{4}{6} - \frac{1}{12} = \underline{\quad} - \underline{\quad} = \underline{\quad}$

—
