# Safe Splashing

VIDEO <https://www.youtube.com/watch?v=DE6pHkKDIg>

Swimming is a great way to exercise, but it can be dangerous. Stay safe at the pool by following these simple rules.

- 1 Don't play or run around the pool. You can slip and fall on the wet ground.
- 2 Don't eat before swimming. You can get pains in your stomach and it's difficult to swim.
- 3 Find the lifeguards. You can call them and they can help you.
- 4 Look for NO DIVING signs. Never dive in these places – it's very dangerous.
- 5 Always read the signs around the pool before you start swimming. They are there to keep you safe.

Enjoy your swim!
