

CORONAVIRUS VOCABULARY: MATCHING

Directions: Draw a line from the word on the left to the matching definition on the right.

Pandemic

Separating ill people from those that are healthy.

Social Distancing

A period of time where isolation is imposed on people who are suspected of carrying a contagious disease to avoid spreading it.

Isolation

When a disease is prevalent over an entire country, continent or world.

Epidemic

Showing no evidence of a disease.

Communicable disease

Measures that reduce close contact and increase distance among large groups of people.

Asymptomatic

An outbreak of disease that attacks many peoples at about the same time and may spread through one or several communities.

Quarantine

An infectious disease transmissible (as from person to person) by direct contact with an affected individual or the individual's discharges or by indirect means.

Community Spread

When someone has been infected but health officials aren't sure where or how.
