

Polygons on the Coordinate Plane

Independent Practice

Find the area of each figure in square units. (Example 4)

4.

B =

h =

Area =

x

=

square units

5.

Area =

square units

Find the area of each figure in square units.

16.

B =

h =

Area = $\frac{1}{2}$ x

x

=

square units

17.

 $B_1 =$ $b_2 =$

h =

Area = $\frac{1}{2}$ x

x (

+

) =

square
