

MEL3 Worksheet 1 Commission **Name:**

Carl works as a salesperson in an appliance store and earns \$300 per week plus 8% commission. His sales total for this week were \$7800.

Calculate commission:

$$7800 \times 8 / 100 = \$$$

Wages:

$$300 + \quad = \$$$

Gurvир earns 6% straight commission as a real estate agent. She was involved in the sale of a home this week that sold for \$330 000.

Calculate commission:

$$330000 \times 6 / 100 = \$$$

Name	Wages	Commission	Sales	Total pay
Gary	\$567.00	3%	\$1200	
Seyd		5%	\$80000	
Jason	\$400.00	1.5%	\$2300	
Sandra	\$525.00	8%	\$10000	
Philip		3.5%	\$750000	
Amelia		10%	\$10000	
Mason	\$346.00	2%	\$2350000	
Evelyn	\$450.00	15%	\$0.00
