

Basics of a volcano worksheet

1. In the diagram below is a picture of a volcano. Use the words below to fill in the missing labels:

Magma Chamber, Crust, Main Vent, Side Vent, Crater, Lava, Ash and Gas cloud.

2. Match up the key words with their correct definition:

Magma Chamber

A secondary leaving point for the magma

Crust

Where the lava and ash cloud comes out from

Main Vent

Volcanic gases which escape through the main vent

Side Vent

Outermost layer of the earth

Crater

Where the magma is stored in the volcano

Lava

Molten rock which is given off when a volcano erupts

Ash and Gas cloud

The main leaving point for the magma
