ACTIVITIES

modern family

La estructura familiar ha cambiado drásticamente en los últimos 50 años. La familia tipo (mamá, papá e hijos) ya no es la estándar, y muchas variaciones en la familia han surgido. Veamos seis tipos de familia que se pueden identificar hoy en día.

1) Uní los tipos de familia con sus definiciones. Usá un diccionario o traductor en caso necesario.

1. **NUCLEAR FAMILY.** The **nuclear family** is the traditional type of family structure. This family type consists of two parents and children. C
2. **SINGLE PARENT FAMILY.** The **single parent family** consists of one parent raising one or more children on his own. A
3. **EXTENDED FAMILY.** The **extended family** structure consists of many relatives (cousins, aunts/uncles and grandparents) living together. D
4. **CHILDLESS FAMILY.** While most people think of family as including children, there are couples who either cannot or choose not to have children. B
5. **SAME-SEX FAMILY.** The **same-sex family** consists of two parents of the same sex raising their children. F
6. **BLENDED FAMILY.** The **blended family** is one where the parents have children from previous relationships. E
