Meerkats

Klikni na povedi in poslušaj.

Hello! My name is Emma. I really love animals!

My favourite animals are **meerkats**.

They live in Africa in the **desert**.

Meerkats are brown with grey **stripes** and black **ears**.

They are small as rabbits.

They have got a **long body** and a **long tail**, but **short legs**.

They can **stand** on two legs.

They live in **groups**.

They sleep in **holes** in the **ground**.

They eat insects, plants, mice and eggs.

When meerkats eat, some of them stand on two legs and **guard the others**.

That is because some other animals like to eat meerkats.
