Task 2

Selling old, useless things

Read the garage sale tips (1-10) and match them with the headings (A-N). There are two headings you do not need to use. Write your answers in the boxes. There is an example (0) at the beginning.

0	Just decided you're going to have a garage sale? Great! Now give yourself at least one month to prepare.
1	You probably don't want to do this all alone. Ask a couple of friends, neighbours or family members to help.
2	You can pay for an advertisement in the newspaper but there are lots of ways to advertise for free – web sites, grocery-store signs and handmade signs can all help.
3	Start going through your clothes, drawers, closet and under your bed. If you haven't worn something for 12 months you probably won't wear it again.
4	Clean everything, wash, iron and hang clothing, and lay everything out nice and neat on clean tables.
5	Be sure to have coins for your customers. Most people arrive early with bank notes.
6	Make it as easy as possible for people to find your house on the day of the sale. In addition to putting your address in all of your advertisements put up signs starting at the main road.
7	Many people are afraid of pets or have allergies. Keep your pets inside the house or put them in the backyard. Ask your neighbour or friends to watch your pet while you have the garage sale.
8	Do not let people in your house try on clothes or use the bathroom, and keep your doors locked.
9	It's much easier for the shopper if he/she knows the price of each item. It will take you more time, but put price tags on every item.
10	Background music can make a big difference. People often feel happy when music is playing. Find the music everybody likes, and play it loud enough to hear but not too loud.
