

Segmentos Proporcionales

Encuentre el valor x del segmento dado en cada caso para que la proporción $\frac{\overline{AB}}{\overline{DE}} = \frac{\overline{BC}}{\overline{EF}}$, sea correcta.
 Reemplaza los valores de cada razón, para los valores decimales usa la (.).

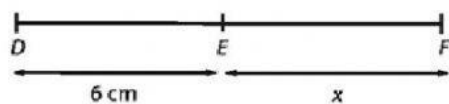

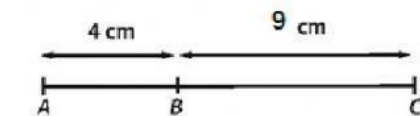

1

$\frac{\overline{AB}}{\overline{DE}} = \frac{\overline{BC}}{\overline{EF}}$

$x =$

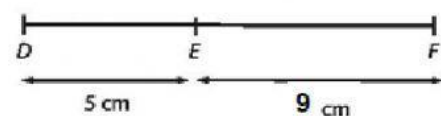

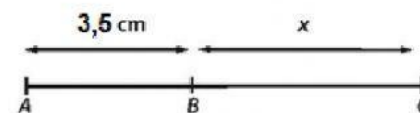

2

$\frac{\overline{AB}}{\overline{DE}} = \frac{\overline{BC}}{\overline{EF}}$

$x =$

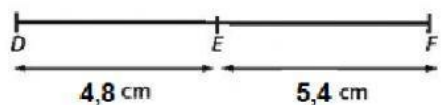

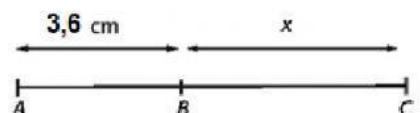

3

$\frac{\overline{AB}}{\overline{DE}} = \frac{\overline{BC}}{\overline{EF}}$

$x =$

4

$\frac{\overline{AB}}{\overline{DE}} = \frac{\overline{BC}}{\overline{EF}}$

$x =$
