**Keeping Physical Distance**

Panamanian people are very enthusiastic, funny and friendly. They usually celebrate different activities in the capital as well as in all the provinces. However, we are facing a pandemic that forces people to practice social and physical distancing to avoid coronavirus.

The cancellations of sports events, schools, cruises, festivals and other gatherings are helping to stop or slow down the spread of the disease. When people hear the word quarantine, they think about the long list of things they are not allowed to do during this time. However, it is time to take care of yourself and think about all the opportunities this lifestyle is offering now.

First, it makes you happy instead of sitting around feeling lonely. It is time to learn new things, review and reinforce old practices to improve the things you do not have time to do during a regular time.

Make a list of positive and possible things you can do at home with your family or by yourself. You can reflect about the goals you have to accomplish in the coming year.

Remember that remaining inside your home is a good way to protect yourself and your family.
