

### Work done questions

1. Put this formula into the formula triangle

**work done (J) = force (N) x distance (m)**

2. Arsene Wenger pushes a box with a force of 60N over a distance of 10m.  
**Calculate the work done. Include the units.**
3. Philip Schofield bench presses 200N over a distance of 0.5m.  
**Calculate the work done by his muscles.**
4. Kim Kardashian weight lifts 150N. Her muscles use 100J of energy.  
**Calculate the distance she moves the weight.**
5. Olly Murs pushes a car uphill. He pushes with a force of 2.5kN over a distance of 2.5m. **Calculate the work done by his muscles.**
6. Beyonce bench presses 1.5kN using 3000J of energy.  
**Calculate the distance moved by the weights.**

**HINT: 1kN = 1000 N**
