

Разгледайте внимателно къщичките и открийте коя от кои елементи е съставена.

До всяка къща има квадрат с различен цвят. Вземете го и го поставете в квадратчетата отдясно където са нарисувани елементите на къщите.

Коя къща от кои елементи е съставена

11

The exercise consists of matching six houses to their constituent geometric shapes and colors. The houses are arranged in a 3x2 grid. Each house has a unique combination of a roof color, a window shape and color, and a door shape and color. A bear is shown holding a paint can at the top. Arrows point from each house to a set of three colored squares. On the right, there are six rows, each containing a house silhouette and three empty boxes for placing the matching colored shapes. The rows correspond to the houses on the left.

House	Roof Color	Window Shape/Color	Door Shape/Color	Matching Elements (from left)
1 (Top Left)	Green	Blue circle	Yellow rectangle	Green house, Blue circle, Yellow rectangle
2 (Top Right)	Red	Orange square	Purple arch	Red house, Orange square, Purple arch
3 (Middle Left)	Green	Orange square	Purple arch	Green house, Orange square, Purple arch
4 (Middle Right)	Green	Blue circle	Red rectangle	Green house, Blue circle, Red rectangle
5 (Bottom Left)	Red	Green circle	Yellow rectangle	Red house, Green circle, Yellow rectangle
6 (Bottom Right)	Red	Purple square	Green arch	Red house, Purple square, Green arch
