

Palīdzi bitei savākt medu!

Cik jāpieliek pie skaitļa medus šūnas ārpusē?

Four honeycomb puzzles are arranged around the bee. Each puzzle consists of a central hexagon with a number inside, surrounded by six empty hexagons. Numbers are placed around the outer hexagons, indicating how many bees should be placed on each to reach the central number.

Puzzle	Central Number	Top-Left	Top-Right	Right	Bottom-Right	Bottom-Left	Left
1	12	+1	+5	-10	-1	-5	+10
2	17	+2	+8	-9	-2	-8	+9
3	15	+4	+6	-8	-4	-6	+8
4	14	+7	+5	-10	-7	-5	+10
