

Find the perimeter and area of the following rectangles

The perimeter is _____ cm.

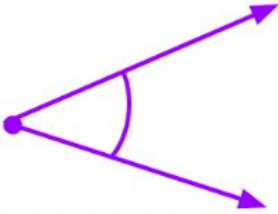

The area is _____ cm^2

The perimeter is _____ cm.

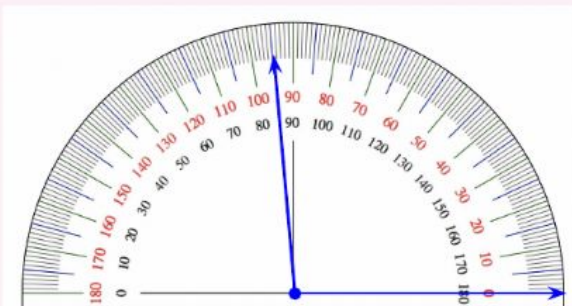

The area is _____ cm^2

Classify the following angles

 **LIVEWORKSHEETS**

Use the protractor to determine each angle

The angle measures: _____.

This angle is: _____.

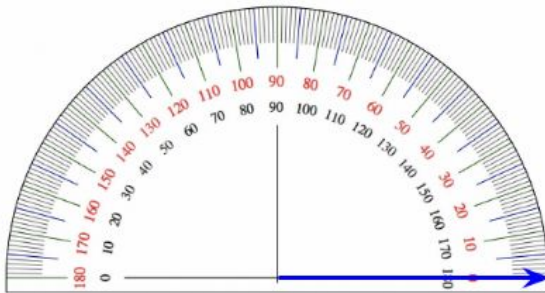

The angle measures: _____.

This angle is: _____.

 **LIVEWORKSHEETS**

Draw each angle using the protractor

1. Draw a 45° angle

2. Draw a 115° angle

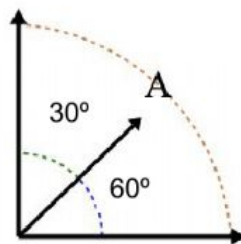

Remember to use the right scale. Knowing if the angle is acute or obtuse will help you know which scale to use.

LIVEWORKSHEETS

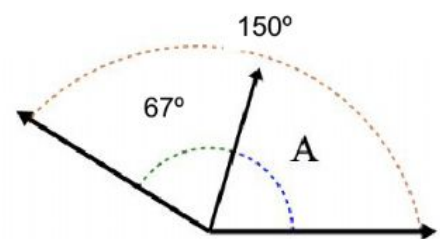

Find the measurement of the missing angle

1)

The angle A measures: _____

2)

The angle A measures: _____
