|               |                                   |                                                                                         |   |   |  |  |

3. Completa y escribe cómo se lee cada número.

|                                                                                     |   |                                                                                         |   |   |  |  |   |                                     |
|-------------------------------------------------------------------------------------|---|-----------------------------------------------------------------------------------------|---|---|--|--|---|-------------------------------------|
|  | ► | <table border="1"> <tr><td>D</td><td>U</td></tr> <tr><td> </td><td> </td></tr> </table> | D | U |  |  | ► | <div></div> <div></div> <div></div> |
| D                                                                                   | U |                                                                                         |   |   |  |  |   |                                     |
|                                                                                     |   |                                                                                         |   |   |  |  |   |                                     |
|  | ► | <table border="1"> <tr><td>D</td><td>U</td></tr> <tr><td> </td><td> </td></tr> </table> | D | U |  |  | ► | <div></div> <div></div> <div></div> |
| D                                                                                   | U |                                                                                         |   |   |  |  |   |                                     |
|                                                                                     |   |                                                                                         |   |   |  |  |   |                                     |

4. Escribe cómo se leen estos números.

30 ►

35 ►

32 ►

39 ►

33 ►

34 ►

5. Une cada número con el correspondiente nombre.

- |      |                  |
|------|------------------|
| • 86 | veintiocho       |
| • 24 | sesenta y cinco  |
| • 52 | ochenta y seis   |
| • 37 | treinta y siete  |
| • 28 | veinticuatro     |
| • 65 | cincuenta y dos  |
| • 45 | cincuenta y seis |
| • 56 | cuarenta y cinco |

6. Suma y resta.

$40 + 30 = \square$

$50 + 40 = \square$

$80 - 30 = \square$

$70 + 10 = \square$

$50 - 20 = \square$

$90 - 60 = \square$
