Mazin's holiday

In the summer, I went to Tanzania with my family. We went on safari. The safari park was 200 (1) from the airport. On the first day, I walked through the safari park. I saw monkeys and chimpanzees climbing the trees. The chimpanzees were (2) the monkeys. On the second day, I rode an elephant. We saw a giraffe. It was the (3) animal I have ever seen! On the third day, we saw lots of lions. They were the scariest animals I saw. The guide told us that lions weigh 120–190 (4) But elephants are the (5) animals in the park, they can weigh up to 7,000 kilogrammes. On the fourth day, I went on a hot air balloon ride. It was amazing! We were 450 (6) high. It was a wonderful trip!
