

EVALUACIÓN DE LOS APRENDIZAJES

SCHOOL YEAR:	2020-2021	QUIMESTRE:	2	SUBJECT:	Science		
TEACHER:	María José Flores			GRADE-COURSE:	3 EGB	CLASS:	A, B, C
DATE:				SCORE:	...../25		

UNIT'S NAME:

Unit 1: Living Beings and Animal classification

Unit 2: My Body and Solar System

DCD TO BE EVALUATED	EVALUATION CRITERIA CONSIDERED IN THE EVALUATION
CN.2.3.1. Observe and describe the physical states of objects from their environment and differentiate them by their physical, solid and gaseous characteristics.	CE.CN.2.5. State from observation and experimentation with objects (for example, those used in the preparation of everyday food); discover their properties (mass, volume, weight), changing physical states (solid, liquid and gas), and that they are classified in pure and mixed substances (natural and artificial), that can be separated.
CN.2.3.4. Observe and identify the types of matter and differentiate them by their characteristics in pure, mixed and artificial substances.	CE.CN.2.7. Explain from observation and exploration of the sources, shapes and transformation of energy, recognizing their importance for the movement of bodies and performing all kinds of work in everyday life.
CN.2.3.9. Explore and identify energy sources in nature; compare and explain their importance for human life, for movement of bodies and for carrying out all kinds of work.	
CN.2.3.2. Describe the changes in physical matter in nature, experiment with water and identify its changes due to temperature variation.	

GENERAL INSTRUCTIONS:

- Read the questions carefully.
- You have **60 minutes** to complete the evaluation.
- If you have finished, go through the exam carefully and send it to your teacher.

Mark...../3

1) Drag and drop. States of matter.

Solid

Liquid

Gas

EVALUACIÓN DE LOS APRENDIZAJES

Mark...../2

2) Choose the state of matter.

**Solid**

**Solid**

**Liquid**

**Liquid**

**Gas**

**Gas**

EVALUACIÓN DE LOS APRENDIZAJES

Mark...../6

3) Choose the force type push or pull.

push

pull

pull

push

push

pull

pull

push

pull

push

push

pull

Mark...../4

4) Match the reusable energy with its name.

**Wind energy**

**Geothermal energy**

**Solar energy**

**Hydro Energy**

Mark...../4

5) Drag and drop the name of each season.

Spring

Fall

Winter

Summer

6) Select the right definition of gravity.

Mark...../1

**Gravity is an invisible force that pulls things to the center of the earth.**

**Gravity is a happy girl.**

**Gravity is the solar system.**

7) Who discovered gravity?

Mark...../1

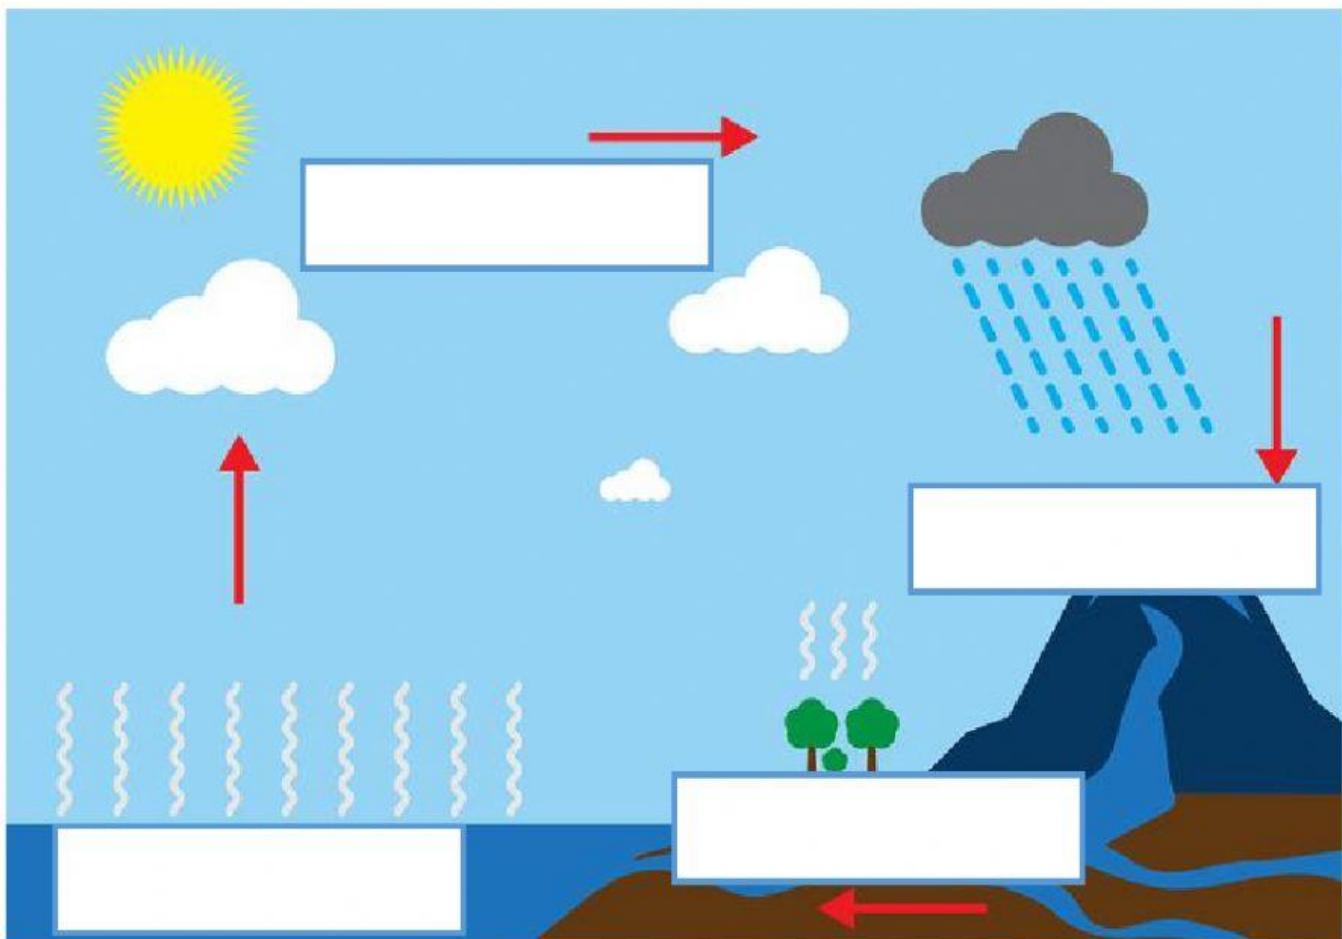

**Cristiano Ronaldo**

**Isaac Newton**

**Angel Polibio Chaves**

8) Label the water cycle?

Collection

Evaporation

Precipitation

Condensation

ASSESSMENT: Each correct answer is worth 1 point.  
The total score of the exam is / = 10/10
