

Name: _____

Read the sentences.
Think about what happens and why.

How Does a Bean Grow?

A bean is a seed you can eat.
You can grow a bean plant.
First, you plant the bean.
Then you water it.
Make sure it gets some light.
Soon you will have a bean plant.
When beans are cooked, you can eat them.

These sentences have two parts.
Read the first part of each sentence.
Then draw a line under the words that
tell what happens next.

1. A bean is a seed, so you can
plant it. play catch with it. yell at it.
2. Because you water the seed,
a fish grows. a plant grows. you grow.
3. When beans are cooked,
a plant grows. you can eat them. throw them away.
