### Find the Mean, Median, Mode, and Range

**Mean:** Add all scores then divide by number of scores

**Median:** Arrange scores in order from least to greatest then find the middle score.

**Mode:** Find the score that appears the most.

**Range:** Subtract the lowest score from the highest.

Find the mean, median, mode, and range of the scores.

7            8            3            6            6

**Mean** =  
Work Space

**Mode** =

**Median** =
