

CHOOSE THE CORRECT WORD

Meet'n'Greet
by labapps

Meet'n'Greet is a new app for your smartphone that allows you to find out which friends are near you so that you can meet up with them. It is a(n) 1 **practical / outdated** and user-friendly application that you can download and 2 **scroll / install** on your phone. After you have created your own personal 3 **account / virus**, every time you go out, it 4 **instantly / costly** finds your location as well as the location of your network of friends. It then informs you which friends are nearby. It's a 5 **time-consuming / time-saving** way to arrange a spontaneous get-together, anywhere, at any time! In addition, if you are somewhere and want company, for example if your flight has been delayed at an airport, just 6 **place / select** the option SocialMeet. This way, you can 7 **deactivate / socialize** with other app users that are nearby and who want to make new friends!
