

Text: Social media.

Read the text and match to form sentences.

I'm crazy about social media and yesterday was a special day at my school: there was an exhibition about different types of social media!

Kevin Systrom was there!

He was the co-founder of the popular application called *Instagram*.

He was born on 30th December 1983, in Massachusetts, USA. He was an excellent student and very interested in computer programming.

In 2010 *Instagram* was launched and it was a success.
